

Treatment Team logic model

Problem (long term outcome)	Risk Factor (intermediate outcome)	Local Condition (short term outcome)	Year 1 Strategies	Year 2 (beyond) strategies
<p>Opiate abuse is negatively impacting Logan County</p>	<p>Inability to access formal treatment</p>	<p>Medication Assisted Treatment options are limited</p>	<p>A1. Get additional MAT providers A2. Continue conversations with Mary Rutan Hospital practitioners regarding prescribing of Vivitrol. A3. Assist with travel expense to out-of-town MAT providers. A4. Help people obtain insurance coverage that includes Vivitrol. A5. Work with ER doctors to have a consistent response to withdrawal, to include comfort medication</p>	<p>Year 2 (beyond) strategies</p>
	<p>Lack of recovery support services</p>	<p>There are no local options for detox and inpatient treatment</p>	<p>B1. Increase partnerships with existing facilities by developing additional contracts. B2. Establish a local detox/inpatient/ambulatory detox facility. B3. Respite care so people can go to detox or residential treatment.</p>	<p>C1. Work with jail to get people directly to 12 step meetings after release. C2. Provide babysitting at 12 step meetings and during tx appts. C3. Talk to local transit companies to provide transportation in the evening for 12 step meetings. C4. AA/NA members connect with locals in inpatient facilities prior to discharge. C5. Provide list of contact information and 12 step meetings to ER and jail.</p>
<p>Lack of recovery support services</p>	<p>Community activities to support sobriety are needed</p>	<p>Connections between community systems and the recovery community are not well-established</p>	<p>D1. Have sober community events available regularly. D2. Start monthly sober activities for those in recovery. D3. Establish a local sober club D4. Additional and ongoing family programming, including Alateen and Al-Anon meetings. D5. Faith-based support groups and pastoral counseling. D6. Develop team to respond to overdoses and link families back to family programming. D7. Develop post-release mentor program</p>	<p>D1. Have sober community events available regularly. D2.
